Our new range of seats provides drivers with greater comfort and protects your health from harmful vibrations. It complies with EU standards with its regulation. It is produced in accordance with EU standards with non-sweaty fabric, high-density polyurethane sponge, recyclable plastic components for your health. In addition, we make your driving enjoyable with its ergonomic design, simple elegance and noble design.

The seat has upper cushion parts, mechanical suspension, 12V/24V electrically controlled pneumatic suspension with built-in compressor, forward/backward sliding system, adjustable back extension, angle and height adjustable armrests, backrest folding, mechanical lumbar support. Other options for the seat include a 360° swivel mechanism, OPS, 2-point automatic seat belt, heating systems and document bag.

The seat series is used in agricultural tractors, construction machinery, industrial vehicles, mining vehicles, electric/mobility vehicles and heavy vehicle driver seats. Automatic and Manual operator weight increases drive comfort and minimizes vibration with height adjustment for steering/clutch access. It has a wide variety of external mounting holes to facilitate installations for both OEMs and aftermarket users.

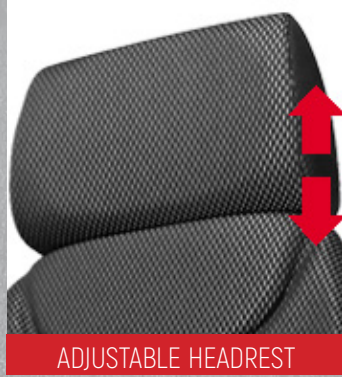

The driver's seats have OEM quality and comply with homologation according to EEC & UNECE regulation **e24 1322/2014 (2018/830W2) EEC.**

Waterproof and limited burning behaviour of interior materials according to **ISO 3795 and UNECE R-118R**
