DRIVER SEATS FOR TRACTOR, FORKLIFT, AGRICULTURE AND SPECIAL VEHICLES

## ABOUT US

**AKKOMSAN OTOMOTIV LTD. STI.** has founded as a small workshop in 1978 by two brothers in Aksehir, Konya (Turkey).

We have been manufacturing various operator and driver seats for tractors, forklifts and heavy-duty machines with brand of "**STAR**" since 1992.

Today, AKKOMSAN is one of the top manufacturer and exporter of Turkey also Middle East. We are one of the most admirable brand with our experience over 45 years, wide product range, patented desings, styles, quality and price.

Our company has ISO 9001:2015 Certification.

The necessity of Quality Management Systems (QMS), **AKKOMSAN OTOMOTIV** proved its high quality products by manufacturing type approval (e Type Certified) seats according to EU norms in current production plants total 30.400m<sup>2</sup> closed area.

Our whole production plants equipped with the latest high technology manufacturing equipments to meet the customers demands with a high satisfaction.

Our aims are; to continue the investments for the purpose of sustained and controlled growth, to upgrade the production capacity and product range, have the new and creative designs with high quality seats and to make "**STAR**" well known brand on global market.

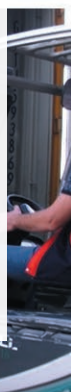

*"STAR is a trademark of AKKOMSAN"*

## Comfortable and Durable!

- Seat and backrest upholstery combining different setting functions are available.
- **Wraparound backrest and seat raised at sides to ensure good holding even when travelling over rough or sloping terrain.**
- Expanded polyurethane padding with washable covering.
- **Metal structures protected against corrosion with electrostatic powder coating in conformity with the quality standards of the EU industry.**
- The height and weight in the mechanism can be easily adjusted with just a few quick movements. The control elements are functionally arranged and easy to use.
- **Every detail (low friction joints, bearings, materials, settings, painting, strength, dynamic response, comfort, etc.) has been designed with special care in order to increase the reliability and the product life span.**

## AKS01

2 Cylinders

Pressure: 8 bar

Tractor PTO speed: 540 rpm

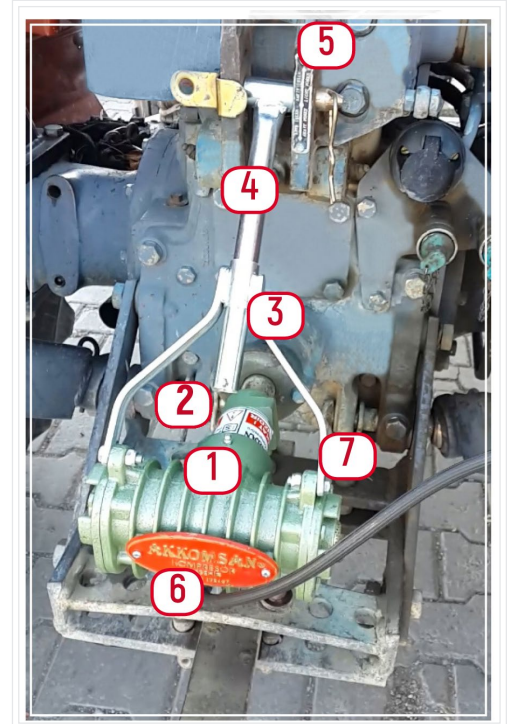

Stroke: 42 mm

Net Weight: 9 kgs - Gross Weight: 10 kgs

With 4 meters special air-hose free

**WARNING!**  
**OIL FREE**

***"It is adaptable for a lot of type tractors."***

- Before using your compressor, firstly you have to inject 60 gr grease oil from the screw of grease. (Number 1)  
(Pumping the grease pump 20 times is approximately 100 gr.)
- Connect the compressor to your tractor using the special lock. (Number 2)
- Connect the pieces to the back of your tractor. (Number 3 & 4)
- To secure your compressor, connect it to the upper lift lever with the drawbar base pin. (Number 5).
- Set the air hose first to your compressor and then to your wheel with the special nut. (Number 6)
- You can start using the compressor by keeping PTO (Power Transportation Organ) of the tractor between 300-400 cycles.
- Check the bolts and nuts periodically. (Number 7)
- Keep the compressor in its original box to protect it from water, dust, and dirtiness, etc. after every use.

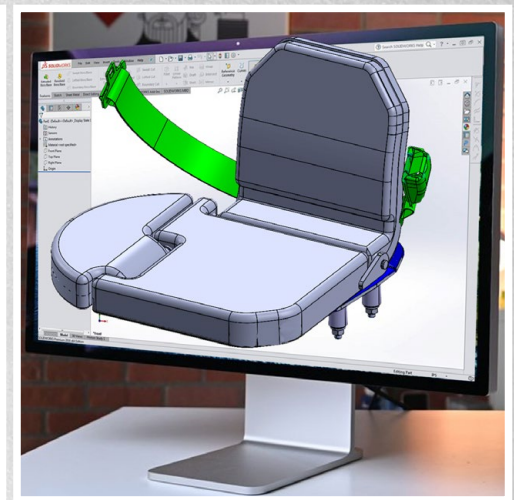

Designing, Engineering and Manufacturing

Great Range of Exclusive Drive Seats for you

We are at your side with a solution-oriented approach in all projects from design to R&D, from mold manufacturing to mass production processes for your special vehicles.
